

Three Things to Fix

Three issues at Heritage on the Marina that could be easily remedied:

Table with No Tabletop

Issue

The table on the grass by the cottage has been missing its glass top since 2022.

Suggestions

- Remove the table or
- Replace the glass top or
- Replace the table with a new one

Entrance from the Porter Garden

Issue

Going out to Porter Garden is one of the most beautiful experiences on campus. Sadly, coming back into the building feels like going into a wasteland.

Suggestions

- Replace the black mat with a much larger mat that covers the unfinished concrete or
- Paint the whole area the same color, including the conduit

Fountain with No Water

Issue

Reflecting fountains are usually painted black, to reflect nicely. Aqua color is used for swimming pools, so you see if a child is at the bottom.

Suggestions

- Paint the pool black to enhance reflections
- Fill it with water to watch the reflections
- Or fill them with dirt and plants
