

Theo Agenda

Concept

This repository is for agendas, actions, to do lists, wish lists, issues, links of interest and other information that I want to keep track of

Actions

- To be taken
- That have been taken (journaling)
- Related references and comments

This repository is not for

- General reference
- Lists
- Links sets and bookmarks
- 'how to' lists or tips

To Do / Wish List

- 2024-01-05 ~ rename repo to simply "agenda" ~ because I've updated the way I'm storing previous years' data

Issues

Links of Interest

Start here:

Simplicity Read Me

Change Log

2024-01-01

- Much work om Simplicity folder
- Added: responses that my daughters write in response to my request for their input in 2023-12-19 Finish the Design #1.

2023-12-30

- Commented out the iframe view
- Major shift in thinking. Starting a new repo every year makes it much more difficult to access the data from previous years. So, I will try adding new folders for each year inside the existing agenda folders and. perhaps putting previous years on an archive folder
- Major update to Simplicity folder
- Add readme-password.html

Deprecated:

EverNote

- Use same ideas for organizing
- Ditto bookmarks

2023-05-01

Working on it

2023-04-22

- First commit this update
